# THE HISTORY OF JURIN ROOFING

Jurin Roofing Services has a long history of professional, quality roofing services and installations. For the past 46 years, Eric Jurin, owner and founder of Jurin Roofing, has worked hard to build the company's reputation as a reliable, trusty worthy partner.

With over 16 million square feet of roofing installed and one of the highest client retention rates in the industry, it's no wonder we are still going strong after four decades. However Jurin Roofing was born from very humble roots.

In 1974, Eric Jurin quit his position as a roofing laborer for his father-in-law's roofing company, bought a truck and began laying the foundation of what is Jurin Roofing Services today.

It has been Eric's personal passion for the art of roofing and the need for excellence in customer service that has given Jurin Roofing its edge in the marketplace.

His ability to see past problems to solutions and always build those around him has made him a strong leader to his employees and has help build several strong leaders within the firm.

His passion is what lies at the core of Jurin Roofing's success and continues to inspire and grow those that work for him.
